## GENESIS @ VTV FORMULATIONS INDIA :

VTV Formulations India Pvt Ltd is a WHO GMP, ISO 9001 2015 certified company. We are customer centric, quality conscious company operating with eight sections entirely focusing on contract manufacturing or third party manufacturing for our clients across India.

We use authorized technology in a sterile environment to prepare our products. We strongly believe in continuous improvement & upgrade products, processes, equipment, systems as per global technology. This make easier for us to deliver the varied range of product at reasonable price to our clients in comparison to competitors, resulted to cultivate a positive out look in the market and created long term client engagement.

VTV Formulations India Pvt Ltd, is dedicated to increasing access to high-quality healthcare in domestic and foreign markets. Our third party pharmaceutical manufacturing program is excellent and provides various opportunities to our customers. Our company's goal is to give customers outstanding products, which we then support with top-notch customer service.

We are quite assured that our efforts to deliver a global quality output as a contract manufacturer will lead to continuing growth for clients in the coming years.

## VISION @ VTV FORMULATIONS INDIA:

To provide comprehensive healthcare services, integrate across globe through innovation, quality and competence while honouring social and environmental responsibilities.

## QUALITY @ VTV FORMULATIONS INDIA:

At VTV Formulations Quality is not an act, it is a habit. Our products are of the highest quality, far above what our customers expect. All of our products are made in GMP certified facilities approved by regulatory bodies. We're committed to strive zero-defect and implement strict quality controls to ensure that every product manufactured from its manufacturing plant complies to all applicable quality and regulatory standards. Our entire organization is structured to facilitate the most accurate quality measurements and ensure quality controls are maintained at all times. This reputation of delivering consistently high-quality products in time has helped us to be considered as one of the key partners of hundreds of companies.

### Corporate Social Responsibility

In coordination with community and volunteer groups, we support environmental action. We support the implementation of energy-efficiency measures, which promote global sustainability. We work to leave a clean and healthy planet to future generations, and we are taking concrete steps to make that happen.

**To ensure a healthy environment around our Manufacturing plant, we take the following**

**measures:**

- We stay committed to environmental standards.
- We must protect the air and water resources that we use.
- We believe that for development to be sustainable, the environment has to coexist with it.
- We've made an effort to plant more green areas around our facilities.
- We must constantly educate our employees and offer them incentives to keep the workplace clean.

At Critical Dimensions, we believe in giving back to the community and preserving the culture, values, and traditions to ensure a fair and equitable society. As a society, we have a responsibility to meet the need of society, including making the world a better place and helping individuals live healthier and happier lives.

We sought to help those who have difficulties taking care of their basic needs. It was not our intention to limit our efforts to financial assistance, as we wanted to take on a more long-term role of caring for the community's overall well-being.
