VISION @ VTV FORMULATIONS INDIA:

To provide comprehensive healthcare services, integrate across globe through innovation, quality and competence while honouring social and environmental responsibilities.

QUALITY @ VTV FORMULATIONS INDIA:

At VTV Formulations Quality is not an act, it is a habit. Our products are of the highest quality, far above what our customers expect. All of our products are made in GMP certified facilities approved by regulatory bodies. We're committed to strive zero-defect and implement strict quality controls to ensure that every product manufactured from its manufacturing plant complies to all applicable quality and regulatory standards. Our entire organization is structured to facilitate the most accurate quality measurements and ensure quality controls are maintained at all times. This reputation of delivering consistently high-quality products in time has helped us to be considered as one of the key partners of hundreds of companies.

Corporate Social Responsibility

In coordination with community and volunteer groups, we support environmental action. We support the implementation of energy-efficiency measures, which promote global sustainability. We work to leave a clean and healthy planet to future generations, and we are taking concrete steps to make that happen.

To ensure a healthy environment around our Manufacturing plant, we take the following measures:

- We stay committed to environmental standards.
- We must protect the air and water resources that we use.
- We believe that for development to be sustainable, the environment has to coexist with it.
- We've made an effort to plant more green areas around our facilities.
- We must constantly educate our employees and offer them incentives to keep the workplace clean.

At Critical Dimensions, we believe in giving back to the community and preserving the culture, values, and traditions to ensure a fair and equitable society. As a society, we have a responsibility to meet the need of society, including making the world a better place and helping individuals live healthier and happier lives.

We sought to help those who have difficulties taking care of their basic needs. It was not our intention to limit our efforts to financial assistance, as we wanted to take on a more long-term role of caring for the community's overall well-being.
